Videoconference

manual for students

Contents

1 Access to the videoconference

Access to the videoconference is possible directly through the link assigned to it. Such a link is generated in the process of creating a videoconference in the system and should be sent to potential participants. Connection is possible from Windows, Linux, MacOS operating systems as well as Android and iOS mobile devices. To access the selected videoconference follow the steps:

1. Open the videoconferencing link.

2. Follow the instructions on the screen - install the Zoom client if it is not installed or download it from the Google Play store or Android Store.

3. Select **Sign in to Join** (Fig. 1).

Figure 1: Login to the Zoom client.

4. Click on **Sing in with SSO** (Fig. 2). **NOTE: Do not enter your email address and password in the Zoom window. You should log in only through the Wrocław University of Science and Technology (WUST) website.**

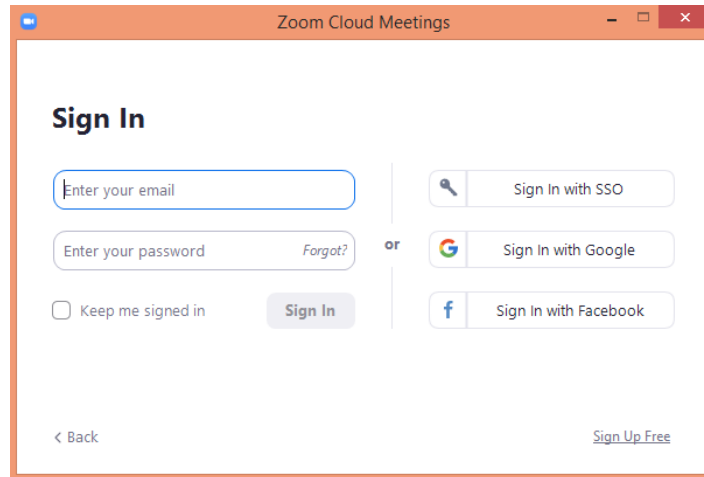

Figure 2: Selection of login options.

5. Enter the SSO address **pwr-edu.zoom.us** and click on **Continue** (Fig. 3). The browser will be redirected to the WUST website. **NOTE: The use of the institutional sso mechanism for authentication in the Zoom service ensures that the credentials (login and password) do not leave the WUST infrastructure.**

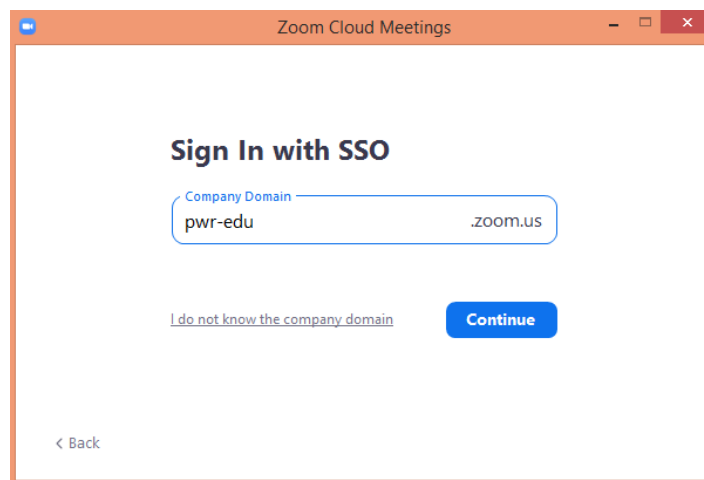

Figure 3: SSO address.

6. Enter the login and password as for WUST mail and click on **Logowanie** (Fig. 4).

Figure 4: Login to videoconference.

7. Select **Join with Computer Audio** (in the absence of a microphone, a telephone connection can be used - instruction can be found in **Phone Call** tab) (Fig. 5).
